

OXI! NO to AUSTERITY

Solidarity with the Greek working class

PUBLIC MEETING

In the Greek referendum on 5 July the working class and youth gave a powerful reply to the attempts of the Troika/Institutions to blackmail them into accepting more austerity in order to stay within the Eurozone.

The Yes vote was campaigned for by the Greek ruling class, the mass media, the EU institutions and the ruling classes internationally.

The referendum produced a tremendous 61.5% in favour of NO to the demands and threats of the Eurozone leaders. But the need for socialist measures is posed.

COME TO THIS MEETING TO DISCUSS WHY WE SAY: refuse to pay the debt; controls on capital flows; for the state control of foreign trade; nationalise the banks and big companies under democratic workers' control and management; reverse austerity; jobs for all, with a living wage, and free, quality health, education and welfare.

Planning the economy for the needs of the people and not the profits of the capitalists - the socialist re-organisation of society - would see an end to economic crises, poverty, joblessness and forced emigration.
