

NO TO OSBORNE'S AUSTERITY BUDGET

Build a mass working class fightback

PUBLIC MEETING

On Wednesday 8 July, Osborne announced measures in his budget that will hit young people hard and worsen the struggle to survive of many working class and middle class people.

He plans to slash tax credits and housing benefit, and maintain the public sector wage increases at just 1%.

Osborne has given the Tories' big business friends an enormous tax handout with corporation tax to be reduced to 19% in 2017 and 18% in 2020.

It is war on young people. Students from low waged households have had their small

lifeline of a means-tested grant removed, turned into more loans to weigh them down with ever more frightening levels of debt.

The Greek workers are saying no to austerity; so must we!

A united struggle is urgently needed to bring together all those who want to fight with those who must fight.

It was a mass working class movement of non-payment that defeated the Tories' poll tax in 1991. Thatcher, supposedly the 'Iron Lady', was reduced to iron filings and forced from power.

**Come to the meeting to discuss
how we build the fightback now**
