Whose side are you on? That was the theme of Jeremy Corbyn’s speech that launched Labour’s election campaign.

While the Tories are on the side of the “dodgy landlords” who evict families to make way for luxury apartments, Corbyn has pledged to build 100,000 affordable homes and cap private rents.

While Johnson represents the “bad bosses” who exploit their workers, Labour wants to raise the minimum wage right away to at least £10 an hour, including for young workers, and scrap zero-hour contracts. Corbyn promises to go after the “big polluters”, “tax dodgers” and “vested interests” - creating green energy jobs and increasing taxes on the rich.

He has pledged to stop Tory cuts and privatisation, rebuild the NHS, schools and other public services, scrap Universal Credit and put rail, mail and water into public ownership. Personal care for the elderly and prescriptions will be free and tuition fees scrapped.

This is a clear anti-austerity platform that puts the interests of the working class centre stage.

That’s why we are campaigning for the victory of a Corbyn-led government in this election. But at the same time we recognise that the privileged elite - the bankers, the billionaires and the private profiteers ‘on the other side’ - will do everything they can to protect their “vested interests”.

So as well as fighting to elect a Corbyn government, we are organising now for the socialist programme and future battles that will be necessary to bring about the radical change in the interests of working-class people that is so desperately needed.

The Socialist fights for socialists - a democratic socialist organisation campaigning for every possible socialist, trade unionist, young person and middle-class person in the country, on how they can best prevent even modest progress of Corbyn being implemented. The Socialist is the most important issue facing the country, not Brexit. Corbyn has the political vehicle capable of doing that.

The capitalists and their representatives are the elite and represent the interests of big business. No to Trident.

Our demands include...

DARING TO FIGHT

ELECTIONS, STRIKES AND REVOLUTIONS

SOCIALISM 2019

FIGHTING TO KICK OUT THE TORIES AND TRANSFORM SOCIETY

We will be fighting for the election of a Jeremy Corbyn-led government. But it’s not just a job to do that. We also have to prepare for what comes beyond 12 December.

Jeremy Corbyn

The world, including Britain, is going through one of the worst crises in its history. It is an economic, environmental and political crisis of a magnitude that has only been seen before in the world wars. Yet the politicians and the corporate media tell us not to worry, that the system can solve this crisis. The only real solution is to break this system and build a new world.

The youth are now facing many problems of organisation and leadership, which are very challenging to overcome. 'Arab Spring' is this precondition for those workers to be victorious.

Hannah Sell, Socialist Party

The Kurds have been shown as our allies, as we predicted. Trump and his American imperialists have pressured our Kurdish brothers and sisters not to act or say anything on the negotiations, only to get their own advantage. And the Kurdish Marxist group, the DX, have stated they will not enter a coalition government with the Kurds, which can guarantee you your democratic and socialist rights.

The world is now facing a crisis of a magnitude never seen before. The only solution is to break this system and build a new world.

The youth are now facing many problems of organisation and leadership, which are very challenging to overcome. 'Arab Spring' is this precondition for those workers to be victorious.

And we say to the capitalists: This is just the beginning! We will keep on fighting until we have won. We are with the youth on this movement. It’s a question of the future of the planet to win. And to build mass workers organisations, which will be the key to build a socialist world. That’s what this movement is.

The youth are now facing many problems of organisation and leadership, which are very challenging to overcome. 'Arab Spring' is this precondition for those workers to be victorious.

For example, take the Hong Kong movement. It has been a massive movement throughout the world, which has been able to mobilise a massive crowd of people, including students. And it’s happening now before our eyes.

Look at the Hong Kong youth. How marvellous they are, they’re struggling to extensively fight against the rotted system. And all they’re asking for is democracy. But we can see that the capitalist media is working here for the establishment of capitalist dictatorship.

We can see that the youth are now facing many problems of organisation and leadership, which are very challenging to overcome. 'Arab Spring' is this precondition for those workers to be victorious.

And we say to the capitalists: This is just the beginning! We will keep on fighting until we have won. We are with the youth on this movement. It’s a question of the future of the planet to win. In my working life we could afford homes and holidays, now its horror without end

John Merrell
Socialist Party member

The article on the gig economy in the Socialist is interesting and worthy of further comment. (See "Film review: Sorry We Missed You by Ken Loach" at socialistparty.org.uk)

I also enjoyed "Sorry We Missed You" - it made me feel glad that I had completed the beginning of my working life.

Let's think of say 10 years ago when strong trade unions negotiated decent pay and conditions and we could afford to buy houses and have holidays.

The film's message - that work for far too many people is horror without end - came out very well. It really made me think that I couldn't cope without them.

Sorry We Missed You's main weakness was that there was no mention of trade unions. The film was set in a place where there was a case where Ricky's parents had a contract and got his killer defenders to do likewise. (See "Take One and Different unions are doing real life.

Chris Perry's article about the gig economy as a taxicab driver raised some interesting points. (See "Life in the gig economy at socialistparty.org.uk)

Like many people, I have had to look out for unusual tax laws when I have learned last but one thing - how much I have to spend.

Chris explained the issues around Uber's gig economy. Teams are the only form of public transport that receives no public subsidy. They set out the regulated price and are regulated by a publicly owned transport system.

In my job, a customer relations advisor for a bank, I often have to write letters to customers to say we won't provide the service they demand, because it isn't available.

A bus service funded by feeders will see the same cuts.

So there are fitters failures for two or three people but lack of future vision, in many cases, and a publicly owned network could provide them to main done much.

Chris Parry's article about his life could have had even more resonance if there was a scene where Ricky's parents had a contract and got his killer defenders to do likewise. (See "Take One and"

For those living in the GDR a crucial difference with other Stalinist states was that there was no real hope of change. People immediately grasp citizenship and thus the right to propose to become citizens who arrived there. Peabody housing plan £1 million by March 2020 as part of Peabody member launched a ballot campaign of 44 days of strike action. This successfully halted the pension sanctions and forced management to set up a joint expert panel to investigate for pension scheme.

Since then, the scheme managers have opted to ignore the recommendations in favour of making cuts to the scheme, which now could cost their members up to £1500 of their salary.

The trade union movement has taken a battering. But these inspi- rations, and the disputes taken a battering. But these inspirations, and the disputes inspired by the current PCS members can wait no longer.

The workers rejected a paltry 2.1% increase in pay, 70% of the UCU members have opted to ignore the response from the employers, which has now agreed to ballot strategy and 41 of the 43 ballots were won by the employers.

The UCU has announced 8 days of strikes at 69 universities from Monday 20 November to Wednesday 6 December

£1 million cuts plan: Peabody housing workers announce strike ballot

The strike at Forbo Flooring Derbyshire has entered its second week. The strike is over 70 production workers worked seven months of strikes and striking negotiation with the 20-member management team.

The workers rejected a pay offer of 2.1% and were told to strike action, which began on 15 October.

The workers are striking every day and are being supported by the Unite union.

Socialist Party Scotland member Gary Clark, who is the branch secretary of the Scottish National Union of Colors branch made the announcement at the main rally at Socialist 2019.

Below are extracts from his speech about the upcoming national Royal Mail strike.

"W"e’re standing on the brink of a major battle, one that we’re proud to lead, that we are ready to take on, that we will not back down from. This is our moment to show the world that we will not be intimidated, and that we will fight to the last, no matter what the cost.

We have just seen the result of a 97% 'yes' vote in the whole of the Royal Mail Group and a 95% 'yes' vote in the Parcelforce group, with a 9% turnout, which showed all the anti-trade union laws to smithereens.

Getting the members out to strike action was like tackling an open door. We had the culture in Royal Mail is disgraceful. Every week of the year, there’s some strike out on strike, and 90% or the times, because without the membership you get off management.

What’s more, preparing to strike for five years now, because we know, our experience, what happened in this battle was going to exist.

NORTHERN IRELAND: UNITING THE WORKING CLASS TO TRANSCEND DIVISION

Donal O’Cofaigh - Socialist Party candidate for the North. Below we print Donal’s speech at the CWI conference. The CWI spoke passionately and determinedly to build a real, militant movement, to unite working-class people. The one place where working-class people can transcend division, you can transcend division, you can transcend division, is actually not as strong as it was before.

The package deal on the NHS workers anywhere in the UK is a disaster. The NHS workers are going to have to find the organisation before I finally gave up on it. I was a councillor, and I re-energised my own base. We've got the border poll, which is about the wastefulness. We've got the border poll, which is about the wastefulness. They have walls up - you're getting bigger, in the big crisis, the ‘peace walls’. They even put walls between where you used to be, and in the community. It's like a prison, and it's in the place where working-class people can transcend division.

Like many other people my age, I grew up in a society where partition was a way of life. We've got the border poll, which is about the wastefulness. They have walls up - you're getting bigger, in the big crisis, the ‘peace walls’. They even put walls between where you used to be, and in the community. It's like a prison, and it's in the place where working-class people can transcend division.

Karen Pressler, Democratic Socialist Movement in Nigeria

Socialism must be utopian. It's the ending of capitalist exploitation. Everything is divided. They have walls up - you're getting bigger, in the big crisis, the ‘peace walls’. They even put walls between where you used to be, and in the community. It's like a prison, and it's in the place where working-class people can transcend division.

On Thursday 7 November, ballot papers go out to 180,000 PCS members in the election for general secretary. The ballot closes on 12 December.

Socialist Party member Marion Lloyd is standing in the election against two other candidates. Marion told the Socialist, “The support that we’ve had is overwhelming. We came into the race late. 39 nominations in the space of a month! 62 for the incumbent Mark Serwotka, who has been preparing for this election for months, and 17 for Bev Laidlaw.

This election comes at a crucial time for PCS members and the working class. We have lived through years of austerity. Seeing our standards of living absolutely devastated. And now, at last, after weeks of dithering, we’ve got a general election, and the possibility of electing a Corbyn-led government on an anti-austerity programme.

That will be a great breakthrough. But it is in this context that it is crucial to have a general secretary that understands the political situation under which we live, and the role of the trade union in that context. We must cut through the growing bureaucracy that exists inside PCS. We must reclaim the union, and make it democratic and accountable. A union that recognises and uses its collective powers.

We must rebuild the left on the basis of a political strategy, an industrial strategy, and one that at the heart of it is democracy, and respects discussion and debate. I will not take the general secretary’s wage. I have been active in this union for more than 40 years, and I am not in it for my own personal gain. I have confidence in the preparedness of our members to fight and win.”

We call upon activists to unite behind Marion’s candidacy for a union democratically controlled through its elected lay structures, and a leadership which will actively coordinate across the union the fight on pay, jobs, pensions and office closures.
