### TUC Congress rally & lobby 'Cameron gone - get the rest of the Tories out!'

1pm, Sunday 11 September, Brighton

The EU Referendum result has plunged the Tories into crisis. Cameron – the architect of the most brutal austerity offensive for 90 years is history! Osborne is missing in action and Boris’s leadership ambitions are in tatters. We can all celebrate this outcome along with Farage’s resignation. Their weakness makes the attempted Blairite coup against Jeremy Corbyn all the more unforgivable and needs to be defeated. This is a Tory government without authority nor legitimacy yet they still intend to plough on with the cuts. We have to get ALL the Tories out but how?

We need to bring together all the struggles against the Tories. Teachers and lecturers are finishing the academic year on strike with plans for more action in the autumn term. Junior doctors have voted by nearly 60% to reject an inadequate deal but the Tories intend to impose. We can’t let them fight alone. We need mass co-ordinated strike action to bring together these disputes and the many others that

are taking place every week.

The National Shop Stewards Network (NSSN) was initiated by the RMT and its late general secretary Bob Crow in 2006. Now nine national unions – RMT, PCS, CWU, NUM, POA, NUJ, BFAWU, NAPO & FBU – officially support our campaigning work, as well as many union branches, shop stewards committees and trades councils. We have consistently campaigned for mass co-ordinated strike action to oppose Tory austerity and, with the militant unions we work with, we have popularised the idea of a 24-hour general strike.

For the 7th year, we are organising a rally and lobby before the start of TUC Congress – which this year is in Brighton. It is open to Congress delegates and all trade union and anti-cuts campaigners. We will be supporting Congress motions that argue for the mass action that can take on this weak and divided Tory government.

March together, strike together to get the Tories out!
