

1 MAY INTERNATIONAL WORKERS' DAY

All strike together!

May Day is an annual celebration of workers' struggle against capitalism. And workers have been doing just that in the fantastic strike wave of 2022 and now 2023, with millions of workers taking strike action and fighting back.

May Day's origins lie in the general strike for an eight-hour working day, put down by police gunfire in Chicago in 1886, and in the foundation of the Second International, bringing together revolutionary socialists around the world in 1889. Its history shows us the power of the working class to transform society, and the need to overturn the capitalist state.

The Socialist Party's links with the organised working class - the agent of socialist change - are fundamental to our work. Each year, we ask groups of workers and trade unionists to support the Socialist newspaper and its ideas by financing a May Day greeting. There has been a fantastic response to our campaign reflecting the strike wave. We have once again received pledges totalling over £8,500, represented by 94 greetings across 12 pages.

Solidarity May Day greetings from

From the beginning, the Socialist paper has supported and given a voice to NHS workers and to our grassroots campaign. We have been organising NHS staff to fight for fair pay, fighting for an end to privatisation and profiteering in the NHS, to return all outsourced staff back in-house and for patient and staff safety. The fight for the future of the NHS is in a critical stage and NHS staff should be front and centre as part of that fight. Our unions need to tie-in our demands for fair pay with the need to renationalise the NHS.

- We fight on for a socialist NHS!
- We fight for a fully funded, publically owned NHS!
- We fight on for coordinated action of our unions and to force the Tories out altogether!

■ May Day greetings and solidarity with all workers fighting back globally in the struggle against intensifying corporate greed, privatisation and the withdrawal of essential public services.

■ This day 1 May, Unite formerly privatised members in Bart's Health NHS Trust in East London celebrate the return to direct NHS employment of 1,700 workers following our historic landmark strike victory against profiteer Serco in 2022.

■ Our win will resonate with and continue to be an exemplar to struggling health workers, of militant mass collectivised action, mass pickets and demonstrations. And against division, disunity, and racism and for socialism.

The Barking Reach Residents Association sends May Day greetings for International Workers Day to the Socialist newspaper, which has always supported and reported on our campaigns over the years

- We demand a walk-in GP service for our Healthy New Town
 - Abolish Leasehold
- Abolish tax haven-based landlords who are grabbing ground rent for hedge funds
 - Nationalise the top ten homebuilders profiteering from building unsafe and poorly finished properties
- Housing Associations to end the 30-60 minute call centre wait times and fix issues swiftly
 - Councils have failed to stop the decades-long drift to deregulation and unsafe homes. They must engage in a mass home building programme of genuinely affordable, safe and secure, good quality homes. Residents must hold them to account
 - Nationalise the insurance and energy industry to provide green solutions for energy that in turn imparts an affordable service charge to residents
 - Sprinklers to be retrofitted into all blocks owned by large landlords such as Adriatic/Bellway, at the landlord's or builder's expense
